Jennifer,

I took Carrie's version and inserted suggested edits to the portion that described the changes that have been made or are in the process in the community program.

Richard

Subject: State activities conducted after April 2016

I didn't include State activities in Flint (Bryce's UMC letter), because I decided to focus on activities conducted to tighten up implementation, activities meeting the regulations, and activities conducted over and above requirements in regulations. This is what I put together based on our conversations; not all is included. Please let me know if I mischaracterized any information, edit as needed. Add in what I missed.

Thank you!

Jennifer
